

Unrealised Potential

ARTIST: Sue Fox

TITLE: THE BODY IN EXTREMIS

Outline of Unrealised Potential

The show is about exploring new portrayals of the human body that allows the viewer to re-interpret them. From bodies decomposing to the insides of colons or bronze casts of the dead to cell structures and historical medical practises re-enacted! 'The body in Extremis' is intimated by the fact that society has become disassociated from natural processes of decay and ageing, into a world of prolonging life and undergoing plastic surgery. This exhibition would re-align the public with the essentials of life and death...birth, growth, youth, sexuality, disease, ageing, dying and creating spaces in-between these things for contemplation.
